A well done XCOM-like strategy game where you can take your squad on journey in every corner of the galaxy looking for treasures and stuff to kill, a well done game concept at my advice, it is in a really early state so i strongly suggest you to buy it only if you enjoy this kind of gameplay and want to support the devs.. I played the Russians and had no rain till november (Turn 35). No replacements from turn 20 to 30 , then two divisions from 30 - 32, then nothing again till turn 40. The German AI also seemed to ignore any penalties for being out of command range.

I am not sure what this was supposed to be a simulation of, but it certainly was nothing like the russian experience of the Great Patriotic war. It was the war hitler dreamed off though, so the AI had a breeze.

. I really like story-driven choose your adventure games like those produced under the Choice of Game title. I wasn't expecting anything quite that elaborate in terms of plot or character but Impossible Quest failed to keep my interest for even half an hour. Most of the Choices lead to the termination of the game or a silly response that creates no story at all. Stylistically, it is very simple which in itself would not have been an issue. But its blatantly ugly and felt like something written and programmed by a pair of 9th graders. I picked it up for less that \$1 and didn't get my money's worth.. Short, but fun and worth the price.

In some puzzle games you play around on each level until you figure it out. In others, you sit at the beginning of the level and plan for awhile before you do anything. For me, this game was mostly the latter. The first forty or so levels were pretty quick and easy. The last twenty were more complicated and required more thought. Overall, I'd say that, by the end, the game was moderately difficult and that's probably good because if they had made it too much more complicated, I think it would have taken longer for each level, but not really have been more fun.

So, all in all, I enjoyed it and recommend it.. OMG this game is just stupidly fun... will be a real favorite when you have friends round to play...

These are some seriously messed up cats and need sorting as soon as possible!. **THE GAME IS REALLY GOOD, BUT ON STEAM IT IS LOADED WITH PROBLEMS!**

Testures are incomplete, hard to follow the mains missions because you even can't see the characters in game.

**DRAMATIC!** And that for such a nice game :(

Tested a CD version and it's perfect. **DO NOT BUY ON STEAM!**. Relaxing and enjoyable with fun side games.. "nope" is enough i think. **THIS IS MY FAVORITE GAME OF ALL TIME IT HAS SURPASSED ANY AAA GAME AND/OR INDIE GAME ThAT I HAVE EVER PLAYED IN MY ENTIRE LIFE THE GRAPHICS WILL CHALLENGE EVEN MINECRAFT**

EDIT: GOOD SHOOTING

Yo,feel the retro challange!  
Shoot,match and WIN

PLAY NOW!!. Dark Quest 2 is a nice turn by turn casual tactical RPG. It's fun, with nice art, and even a few cutscenes. Yeah, the interface could be improved, but the gameplay is solid and will give you hours of fun.

. Bought it right after it came out. A great time killer. Love that the puzzles are infinite, for real- can't get bored! I'm happy they added achievements. Also, the developer(s) have been wonderfully responsive to questions&comments on the forums for this game.. While I appreciated and enjoyed the 3D isometric platforming aspect of the game (which was admittedly the majority of the game), it's dragged down horribly by an utterly one-dimensional, boring, repetitive RPG-type combat system, as well as an uninspired storyline chock full of sci-fi clich\u00e9s. While I was able to look past its flaws enough to finish a playthrough of the game, in hindsight, as a whole, it's not a game I would recommend.. More fun than the videos even let on, I mean... you can take control of the machine gun turrets and manually mow down the enemy hoardes its awesome. Simple, fun, everything I ever wanted in a strategy game. <3. Fly through the cosmos, shoot down vicious robots and try desperately not to die in Humans Must Answer!

<http://80pgaming.com/content/2014/1/20/humans-must-answer-review>. Fun game, feel like a boss when you are evading a thousand projectiles. Unacceptable that a pc port does not support m/kb controls. It also doesn't mention this on the store page either otherwise I wouldn't have bought the game. Thank goodness for steam refunds.
